Course Overview

This two-day WSQ course develops the ability to structure, value, risk-manage and integrate M&A transactions. A progressive real-world case links strategy, finance, diligence, governance and post-merger execution.

Course Code	TGS-2026061581
TSC	WST-CFI-5003-1.1-1 — Mergers and Acquisition
Duration	2 days · 16 hours
Training	14 hours
Assessment	WA 1 hour + Case Study 1 hour
Daily Time	9:00am–6:00pm

Learning Outcomes

- LO1: Apply financial instruments and valuation methods to structure mergers and acquisitions that optimise organisational benefit and shareholder value.
- LO2: Evaluate the business, financial and tax impact of potential M&A deals using industry data and forecasting techniques.
- LO3: Identify, assess and manage M&A risks across the full transaction lifecycle from target selection to post-deal integration.
- LO4: Collaborate with stakeholders to develop and implement M&A plans while ensuring governance, synergy realisation and strategic alignment.

Daily Schedule

Day 1 — Structure, Valuation, Forecasting and Tax

Time	Minutes	Topic / Activity	Method	Slides
9:00–9:30	30	Welcome, attendance, outcomes and assessment briefing	Interactive presentation	—
9:30–12:15	165	Topic 1 — Deal Structuring and Valuation Principles; Activities 1–2	Interactive presentation · case study · discussion	Slides 20–50
12:15–13:15	60	Lunch break	Lunch	—
13:15–15:30	135	Topic 2 — Forecasting, Financial and Tax Implications; Activity 3	Interactive presentation · case study · discussion	Slides 51–80
15:30–15:40	10	Afternoon break	Break	—
15:40–17:45	125	Topic 2 continued; Activity 4 and Day 1 deal-team review	Interactive presentation · case study · discussion	Slides 51–80
17:45–18:00	15	Day 1 recap and reflection	Reflection · Q&A	—

Total training/assessment time excluding lunch: 480 minutes (8.0 hours).

Day 2 — Risk, Intelligence, Integration and Assessment

Time	Minutes	Topic / Activity	Method	Slides
9:00–11:45	165	Topic 3 — Target Identification, Risk and Intelligence; Activities 5–6	Interactive presentation · case study · discussion	Slides 81–110
11:45–11:55	10	Morning break	Break	—
11:55–12:40	45	Topic 3 decision gates and risk review	Interactive presentation · case study · discussion	Slides 81–110
12:40–13:40	60	Lunch break	Lunch	—
13:40–15:45	125	Topic 4 — Stakeholder Alignment and Integration; Activities 7–8	Interactive presentation · case study · discussion	Slides 111–149
15:45–16:00	15	Course synthesis and assessment preparation	Reflection · Q&A	—
16:00–17:00	**60**	**Written Assessment (WA-SAQ)**	**Assessment**	**—**
17:00–18:00	**60**	**Case Study Assessment (CS)**	**Assessment**	**—**

Total training/assessment time excluding lunch: 480 minutes (8.0 hours).

Topic and Activity Breakdown

Topic 1 — Deal Structuring and Valuation Principles · Slides 20–50

Mapping: K1 · K3 · A1. Financial instruments · valuation · shareholder value · economies of scale.

Activity 1 — Bonadio–TGA Deal Thesis and Structure Lab · Slide 41

Use the announced Bonadio–TGA professional-services transaction to build a defensible strategic thesis and term-sheet architecture.

- Output: Deal Thesis and Structure Decision Page (PDF or DOCX)
- Acceptance: The page distinguishes facts from assumptions, proposes at least two instruments, links each term to a risk or value driver, and includes an explicit go/conditional/no-go recommendation.

Activity 2 — Bonadio–TGA Valuation Triangulation Lab · Slide 45

Build a screening valuation for the real announced transaction using clearly labelled training assumptions because the deal's financial terms were not disclosed.

- Output: Valuation Workbook and one-page Valuation Range Memo
- Acceptance: The model is formula-driven, shows sources/assumptions, has a working sensitivity table and reconciles DCF with the multiple range without claiming undisclosed deal facts.

Topic 2 — Forecasting, Financial and Tax Implications · Slides 51–80

Mapping: K2 · K5 · A1 · A2. Business impact · synergies · pro forma statements · tax.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Activity 3 — Bonadio–TGA Three-Year Synergy Forecast Lab · Slide 71

Translate the public strategic rationale into a three-year base/downside/upside forecast with a traceable synergy bridge.

- Output: Three-Year Synergy Model, Synergy Register and Management Dashboard
- Acceptance: Standalone and synergy cases are separate; every synergy has an owner and timing; cash impact includes cost-to-achieve and tax; downside results are visible.

Activity 4 — Bonadio–TGA Pro Forma and Tax Challenge Lab · Slide 75

Trace an illustrative acquisition through the income statement, balance sheet and cash flow, then challenge tax and control assumptions.

- Output: Pro Forma Impact Pack and Board Challenge Paper
- Acceptance: The pack ties across sources/uses and statement bridges, labels training assumptions, distinguishes cash/non-cash and recurring/one-off items, and lists unresolved tax evidence.

Topic 3 — Target Identification, Risk and Intelligence · Slides 81–110

Mapping: K4 · A4 · A5 · A6. Industry intelligence · screening · diligence · risk · BI.

Activity 5 — Bonadio–TGA Target Screening and Diligence Lab · Slide 101

Convert the public transaction rationale into a target-screening scorecard and a diligence plan that tests specialist capability, client trust and regulatory quality.

- Output: Target Screening and Diligence Workplan
- Acceptance: Weights total 100%, scores cite evidence status, every high-risk item has an owner and decision impact, and diligence findings flow into integration actions.

Activity 6 — Bonadio–TGA M&A Risk Intelligence Lab · Slide 105

Apply the MDPI risk themes and the SSRN enterprise-risk framework to the real announced deal, then create a decision dashboard and escalation memo.

- Output: Risk Intelligence Dashboard and Independent Risk Committee Memo
- Acceptance: Risk statements are specific, scoring scales are defined, controls have owners, dashboard thresholds are actionable and the recommendation follows the evidence.

Topic 4 — Stakeholder Alignment and Post-Merger Integration · Slides 111–149

Mapping: A2 · A3 · K2. Governance · checks and balances · IMO · culture · change.

Activity 7 — Bonadio–TGA Integration Program Design Lab · Slide 131

Use EY's nine-step integration framework to turn the Bonadio–TGA deal thesis and diligence findings into a Day One and first-100-days program.

- Output: Integration Program Blueprint and 100-Day Roadmap
- Acceptance: The blueprint maps all nine EY steps, separates pre-close planning from post-close control, assigns governance and owners, and links integration actions to value and risk.

Activity 8 — Bonadio–TGA Culture, Talent and Client Continuity Lab · Slide 135

Use the professional-services M&A briefing to design a people-and-client integration plan that preserves specialist identity while enabling scaled capabilities.

- Output: People, Culture and Client Continuity Playbook
- Acceptance: The playbook distinguishes preservation from standardisation, names owners and indicators, covers critical talent and clients, and includes a tested response to an early warning.

Resources Required

- Trainer slide deck and Learner Guide
- Individual activity folders and submission templates
- Spreadsheet software for Activities 2–4
- Internet access for cited public sources
- LMS access for courseware and assessment

Assessment

- Written Assessment (WA-SAQ) — 4 open-ended questions, 1 hour, open book.
- Case Study Assessment (CS) — 3 integrated tasks, 1 hour, open book.
- Competency requires satisfactory evidence across K1–K5 and A1–A6, plus at least 75% attendance.
- Assessment block: Day 2, 4:00pm–6:00pm.
- Order: SSG attendance → WA → CS → LMS submission → Assessment Summary Record.
